EDUCATION

Carleton University | **Ottawa, ON** **Sep. 2024 – Apr. 2029 (expected)**

Bachelor of Computer Science (Honours), Cybersecurity stream

- **Relevant Courses:** Applied Crypto and Authentication, Abstract Data Types & Algorithms, Software Engineering, Systems Programming, Discrete Structures

TECHNICAL SKILLS

Languages: C, C++, Java, JavaScript, Python, SQL, HTML/CSS

Frameworks, Libraries & Runtimes: React, Node.js, Three.js, React Three Fiber, OpenCV

Developer Tools & Platforms: Git, Linux, Raspberry Pi, QNX

PROJECTS

NSBE Carleton Website | *React, JavaScript, Three.js, React Three Fiber, Tailwind CSS, Motion, Leaflet* **Jun. 2026 – Present**

- Designed and developed a **responsive website** for Carleton University's National Society of Black Engineers chapter, giving students a central place to explore events and learn about the organization
- Built interactive frontend components, including event listings, animations, and map features using **React** and supporting libraries
- Integrated **3D elements** using Three.js and React Three Fiber to create a more engaging browsing experience

unfollowed.exe | *JavaScript, HTML, CSS* **Dec. 2025**

- Built and published a **Chrome extension** that identifies non-reciprocal Instagram connections by comparing follower and following lists
- Implemented **DOM-based data extraction** to collect account information from Instagram's dynamically loaded interface
- Developed an **interactive popup interface** for managing scans and viewing results without requiring users to share their login credentials

Opp Detector | *Python, OpenCV, Raspberry Pi* **Mar. 2025**

- Built a computer vision system that **recognizes faces** and activates a water-spraying mechanism as part of a four-person hackathon team
- Used **Python and OpenCV** to process camera input and compare detected faces against reference images
- Integrated our **facial recognition website** with Raspberry Pi hardware controls to trigger the physical device

RELEVANT EXPERIENCE

12 Gates Property Services | **Toronto, ON** **July 2026 - Sep. 2026**

Automation & Property Technology Assistant

- Assisted in producing an AI-driven radio show by writing scripts and generating realistic voiceovers and dialogue using **ElevenLabs**
- Organized Google Drive folders and production materials to streamline file management and content creation

LEADERSHIP EXPERIENCE

Carleton NSBE | **Ottawa, ON** **Jun. 2026 - Present**

Technology Assistant

- Lead the development and ongoing maintenance of the chapter's website, keeping event information and organizational content up to date
- Manage the chapter's Discord server, maintaining channels and supporting communication between members and the executive team
